EDUCATION

Adama Science and Technology University (ASTU)

Graduating June 2026

Bachelor Computer Science and Engineering

Adama

Relevant Coursework: Algorithmic Problem Solving in C++, Object-Oriented Programming in Java, Calculus I, Web Development Fundamentals, Database system, Data mining for Machine learning, Data structure and Algorithm, Computer Security, Artificial intelligence, Microcomputing and interface

Achievements:

Top-ranked student in 5 Week Advanced Web Development Bootcamp (CSEC-ASTU)

SKILLS

Languages: Python, Java, C++, JavaScript, HTML, CSS,

Frameworks & Libraries: React, Java Spring boot, Django, fastapi, Node, Express, NumPy, Pandas, Scikit-learn, Matplotlib, REST APIs, Git, SQLite3

Databases: PostgreSQL, MySQL, SQLite3

DevOps & Tools : Docker, CI/CD, AWS

EXPERIENCE (Internship/Apprenticeship/Fellowship/Job)

Information Network Security Administration (INSA) - (Internship) [github](#)

Backend Developer | Addis Ababa, Ethiopia | June 2025 – August 2025

- Developed an Intern Management System using Java Spring Boot microservices architecture, handling user roles such as Interns, Mentors, and HR.
- Designed **REST** and **gRPC** APIs for managing applications, reports, notifications, and dashboards across distributed services.
- Built an activity aggregation service to collect and display **real-time** updates from multiple microservices on the dashboard.
- Contributed to a scalable, secure system by implementing **JWT**-based authentication, role authorization, and modular service design.

Ozone Technology plc ([Certificate](#))

July 2024- September 2024

Frontend web development | Nextjs, Tailwind css | [Falcon](#)

Adama, Ethiopia

- Built, optimized, and deployed a responsive web application using Next.js and Tailwind CSS, achieving a **25%** faster page load time and improving Core Web Vitals.
- Enhanced **SEO** by implementing dynamic routing and server-side rendering (SSR) in Next.js, resulting in a **30%** increase in organic traffic and higher search engine rankings.
- Collaborated in an **agile**, industry-focused environment, following best practices to deliver high-quality code

CSEC-ASTU Advanced FullStack Web Development Bootcamp – Team Leader ([Certificate](#))

March 2024 – May 2024

- Led a team of three to develop a high-performance e-commerce platform using Next.js, Express.js, Shadcn UI, Prisma, and PostgreSQL. (**MERN**)
- Achieved **1st place** in the team competition, recognized as the top submission among all bootcamp teams..
- Coordinated agile development sprints, code reviews, and UI/UX enhancements to ensure optimal product performance.

PROJECTS

SERSOCAA | Full-Stack Developer | <https://sersocaa.org/>

- Built and deployed a secure, high-traffic **Vocational Assessment Certificate Verification Platform** for the Southern Region government agency using **Next.js, Prisma, and PostgreSQL**.
- Eliminated certificate forgery risks by engineering an instantaneous cryptographic verification lookup system.
- Designed an intuitive, minimal, dark-mode administrative dashboard tailored for swift record auditing and role management.

CONWISE | *Full-Stack /MERN* | <https://conwise.vercel.app>

- Architected and deployed **ConWise**, a modular project management platform for Construction Company projects built using **Next.js**, **Node.js**, **Express.js**, **Prisma ORM**, and **PostgreSQL**.
- Engineered a robust report-management module that streamlines construction site reporting, task tracking, and analytics for engineering teams.
- Coordinated a 5-member team through a modular implementation phase, managing GitHub workflows and component division to ensure production readiness..

ATIS NAMA Foundation | *Fullstack Developer* | <https://atis-nama-foundation.vercel.app>

- Designed, built, and deployed the official public-facing platform for the **ATIS NAMA** foundation to manage community initiatives and resource distribution.
- Automated support request and managing their workflows, reducing administrative overhead for foundation leaders by roughly **40%**..
- Implemented responsive UI components utilizing **Tailwind CSS** and optimized asset delivery for low-bandwidth mobile environments.

FOCUS ASTU Web Platform | *Frontend Developer* | <https://focus-astu.vercel.app/>

- Designed, built, and deployed the official public-facing platform for the **Focus ASTU** organization to manage community initiatives and resource distribution.
- Automated registration and event booking workflows, reducing administrative overhead for organization leaders by roughly **40%**..
- Implemented responsive UI components utilizing **Tailwind CSS** and optimized asset delivery for low-bandwidth mobile environments.

LEADERSHIP

Vice President-FOCUS-ASTU(Fellowship of Oromo Christian University Student, ASTU) | 2022-2024

- Directed a student organization of **200+** members, organizing volunteer initiatives, events, and community projects.
- Spearheaded the **AGAPE Project**, mobilizing students to support the homeless, hospital patients, and the elderly.
- Mentored peers, promoted teamwork, and strengthened organizational operations.
- Recognized for exceptional leadership, communication, and problem-solving skills in delivering high-impact community programs.
